

Sam Livingston Parking Map Any area marked in RED are NO Parking zones

There is no parking near garages in the alleyways along the perimeter of the school field. No Parking between City bus stops and traffic lights on Bonaventure Drive and Lake Bonavista Drive. If you park on Lake Bonavista Drive be sure to observe all signage and use the crosswalks every time you cross with your child at drop off and pick up. Be considerate of the residents we share this community with, and remember they are well within their rights to contact Calgary Parking Authority and have you ticketed and towed.

Section 27(1) In alley - within

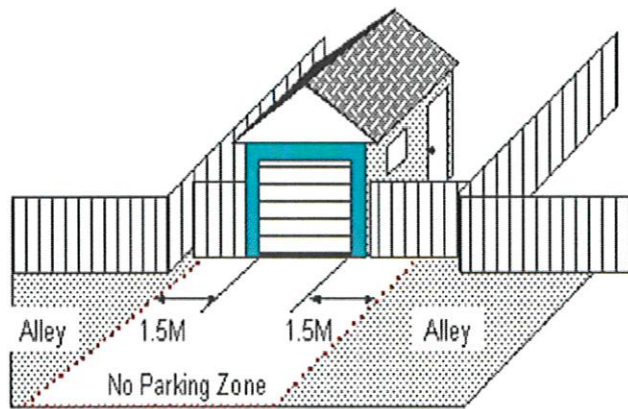

1.5m

The bylaw says

"No owner or operator of a vehicle shall stop or park or permit the stopping or parking of the vehicle on either side of any alley in front of or within one and one half meters of a driveway or garage entrance entering into the alley."

In simple terms

Vehicles parked in front of, or within 1.5 meters of a driveway or garage entrance in an alley can be ticketed and/or towed.

Purpose

This section ensures that vehicles have safe access to garages and driveways. Vehicles parked too close to garages and driveways limit visibility and are a safety concern to motorists and pedestrians.

Applicable Fines

Leave bus stops for buses

Drivers often pull into bus stops to wait for a friend, buy a cup of coffee or use a bank machine. Even a quick stop blocks the zone, forcing Calgary Transit drivers to unload or load passengers on the street.

This is a potential hazard for elderly and handicapped passengers and an inconvenience for other motorists when the bus is unable to pull into the zone.

Stay away from corners

The space at the end of the block is an inviting temptation to the frustrated driver looking for parking. Beware! The bylaw requires vehicles to park 5 metres from the inside edge of the intersecting sidewalk. How far is 5 metres? It's roughly 16 feet, which is over a car length. This restriction is intended to provide pedestrians, cyclists and motorists with both a clear field of vision and plenty of space when approaching intersections.

Park safely at schools

- Each year, the CPA receives numerous complaints about how people park in these school zones. To ensure the safety of children who are being dropped off or picked up at school, please follow these tips:
- 1. Avoid double parking;
- 2. Watch for signs indicating 'No Stopping' and 'No Parking' zones;
- 3. Keep school bus zones clear so children can step off the bus and onto a curb instead of exiting into a busy street;
- 4. Leave 5 metres between your car and any crosswalk markings. This will ensure children are visible when they enter the crosswalk;
- 5. Park a least 5 metres from stop signs, yield signs or intersections so that you can clearly see any children in the area; and
- 6. Avoid blocking entrances to garages or driveways. Stay back at least 1.5 metres.
